SUMMARY

Frontend engineer and lifelong learner with a firm grasp on the latest tools and technologies for developing and driving a successful digital product. I've developed web sites and applications for Enterprise-scale companies as well as smaller NGO's as a full-time employee and contractor. I develop in React and Angular every day, and am up to date with the latest and greatest in each. To see all of my React / Angular projects, view my Github at <https://github.com/Froglegg>.

TECHNICAL SKILLS

Highly skilled in Javascript ES6, CSS / SCSS, React / Angular frontend development, RESTful API development, Node.js server development, and developing in the NPM ecosystem

Skilled in MySQL / Postgresql / NoSQL database management and AWS

Familiar with using Python for automating tasks, and the Django and ASP.net frameworks

RELEVANT EXPERIENCE

ASSURANT

Sept. 2018 – Present

Frontend Engineer

Atlanta, GA

- Built out UI of 23 enterprise websites in Agile digital product team; building campaign page UI based on mockups; daily UI (CSS, JS and Bootstrap) tweaks; RESTful API (TrustPilot, Sprinklr) development; Automating repetitive tasks with Python and building CLI tools in Node.js; writing technical documentation.
